Kaethia_ Releases Debut Single “Same Light, Same Love” Ahead of 12-Track Debut Album *One World, One Song*

The multilingual opening track introduces a message of unity and connection ahead of the September 21 release of *One World, One Song*, an album built around the vision of a utopian world called Kæthiar.

MIAMI BEACH, FL — September 5, 2026 — Kaethia_ has released “Same Light, Same Love,” her debut single and the opening track of her forthcoming debut album, *One World, One Song*.

Released on September 4, “Same Light, Same Love” is built around a simple idea: beneath differences of language, culture and background, people have far more in common than the differences that separate them.

Moving between English, Portuguese and Spanish, the song turns that message into an energetic celebration of connection, diversity and togetherness. Its recurring idea, “same light, same love,” reflects one of the central themes of the upcoming album: people do not need to become the same in order to stand together.

One World, One Song will be released on **September 21, 2026**, the International Day of Peace. The date reflects the album’s broader themes of unity, freedom, peace, joy and belonging.

Across the album, Kaethia_ imagines an ideal world in which borders, fear and division give way to connection, respect and a shared sense of belonging. Different languages, rhythms and cultural influences are used throughout the project to express the same underlying idea: diversity can remain intact while people recognize what they have in common.

“Same Light, Same Love” is the first musical expression of that vision.

Kaethia_ says:

“We don’t want a world without differences. We want a world where our differences never become walls. ‘Same Light, Same Love’ is about recognizing the world we share, while celebrating the individuality, languages, cultures and stories that make each of us unique.”
